

Full Stack Developer with 5+ years of experience across React, Next.js, React Native, Python, Django, AWS and GCP. Strong in legacy modernization, metadata-driven systems, API orchestration, OTA integrations, performance optimization and secure AI tooling, with knowledge of RAG and LangChain.

CORE SKILLS

Frontend	React.js, Next.js, React Native, TypeScript, JavaScript, Redux, Tailwind CSS
Backend	Python, Django, REST APIs, API Orchestration
AI / LLM	RAG, LangChain, Internal AI Tooling
Cloud / Data	AWS, GCP, PostgreSQL, Supabase, Firebase
Testing	Jest, React Testing Library, TDD
Tools	Git, Jira, Webpack, npm, HTML5, CSS3

PROFESSIONAL EXPERIENCE

Full Stack Developer Nov 2024 – Present

UKB IT Solutions

- Resolved critical frontend and backend issues, improving stability, performance and reliability.
- Modernized a legacy application into a scalable 2.0 generic platform, improving both user and admin experiences.
- Built a dynamic Admin Portal using reusable, configuration-driven frontend and backend components.
- Created generic forms, tables, filters and workflow components to reduce duplication and accelerate feature delivery.
- Developed an Integration Hub that reduced new OTA integration time from 1-2 days to a few minutes.
- Implemented AWS metadata-driven API rendering and a generic API Orchestrator for centralized API management.
- Developed a secure internal AI Hub and worked with RAG / LangChain concepts for controlled AI workflows.

Full Stack Developer – Web & Mobile Sep 2022 – Nov 2024

XU Lifestyle

- Built a Bangalore rental-property platform covering property search, filtering, scheduling, booking and operational workflows.
- Developed a dynamic Admin Portal for properties, bookings, users, pricing and day-to-day management.
- Created reusable React / Next.js components, generic forms, tables, filters and dashboards driven by backend data.
- Built reusable Python / Django REST APIs and CRUD modules, reducing duplicate frontend and backend code.
- Managed complex admin state with Redux and developed a cross-platform React Native app for iOS and Android.
- Integrated Razorpay, improved SEO and optimized API/UI interactions for better usability and performance.

Data Analyst / Developer Support Aug 2021 – Sep 2022

Genpact India Pvt Ltd

- Analyzed application and UI performance data, supporting responsiveness and SEO improvements.
- Maintained Jira sprint updates and collaborated with developers on frontend issue resolution.
- Supported QA through TDD result reporting and Next.js performance monitoring.

SELECTED PROJECT

Employee Profiles & Service Selection Platform Varnitech Software Solutions – Extra Project

Built employee profiles, rate cards, service selection and a customized resume-builder workflow.

Tech: React.js, Next.js, Redux, REST APIs, Webpack, npm, Git

EDUCATION

B.Com – Computer Applications 2017 – 2021
Osmania University
